THURSDAY MORN'O, APRIL 17, 1851.

DFDoring the last twenty four hours, up to the writing of this (7, P. M.) n violent storm has been raging.-The wind has been blowing from the northeast, with great violence, and still continues. It is the worst storm we have had during the winter or spring. The steamer Perry did not go to Prov idence yesterday. We learn that a new house, owned by Mr. Chaec, near the two mile corner, and not quite completed, has been blown donn. Considcrable damage has been done to fences, chimnies, blinds trees. &c., about town; and we fear that much injury will be done to vessels on the coast. The tide has been higher than for many previous years.

We believe Dr. C. M. Jackson's ' Handand's "We believe Dr. C. M. Jackson's 'He stand's forman flitters,' to be a most excellent medicine, and one that should be highly popular in these days of Temperances-for they are altogether Veg table in their composition, without one drup of Abrebatic Spirits in them. This medicine is innevent, but strengthening in its effects, and righly deserving of an ard smalled popularity, which, when it becomes known, it will, no doubt, fully enjoy."

Judge M. M. Nuch said, in his "Weekly Messenger," January 6, 1850.

"Dr. Hooffmair Garnan Bitters.—Here is a preparation which the leading pressess in the Union reasons in obvious. It is made after a prescription furnished by one of the most exhibited physicians of modern times—the kile Dr. Christopher Willhelm Hooffmah, professor to the University of Jena, private physician to the king of Prussia, and one of the greatest medical writers Gormany has ever produced. He was emphatically the enemy of hundring, and therefore a malicine of which he was the investor and endorser may be confidently relied on. He specially recommended it in Liver Complaint, Byspensia, Diddity, Vertigo, Acidity of the Stomach, Constipation, and all couplaints arising from a disciplered condition of the stomach, the liver and the intertines. Xinc Philadelphia papers express their conviction of its excellence, and several of the editors speak of its effects from their nown individual experience. Under this circumstance, we feel warranted, not only in culting the nation of our readers to the present proprietor's (Dr. C. M. Jackson's) preparation, but in recommending the article to all afficted."
